NATIONAL BANKS.—The entire number of national banks in the U.S., is 1,628, wholly absorbing the \$300,000,000 authorized by Congress. The amount of authorized circulation, computed upon authorized capital stock, is \$314,715,000. A number of banks have, however, waived the right to demand circulation upon a portion of their capital stock. The amount of circulation issued to date is \$245,-866,510, leaving \$54,133,490 due banks already organized, and a portion of which is now in the vaults of the Comptroller of the Currency. The only banks being organized are those which, previous to June 1, 1865, filed their applications.

A despatch from Chattanooga says: - A robbery took place here last Mouday, which, if the facts are stated correctly, is one of the most extraordinary on record. Two men named Bass and Williams, pretending to be detectives from Columbus, Georgia, persuaded a lieutenat of the military guard to furnish them assistance, went to the Crutchfield House, dragged several gentlemen out of bed, carried them to the guardhouse, plundered them of over two thousand dollars in money, watches, &c., and kept them locked up that night, and the next day started South. The affair is undergoing an investigation before the military authorities.

A party of men were arrested in East St. Louis last week, charged with being connected with others in stealing a large amount of goods from the Ohio & Mississippi R. R. and Transfer Company. It is said that during the past year \$100,000 worth of merchandise has been stolen from the above companies, which they have had to pay for, and which will probably be accounted for by the arrest of the alleged thieves, and the recovery of a portion of the property.

A number of warehouses containing a large amount of valuable stores were destroyed by fire at New York yesterday. The loss is estimated at about half a million of dollars.
